

UNIVERSITY OF
SASKATCHEWAN

An admission average is calculated using subjects and grades that appear on applicants' high school transcripts using this five-mark formula:

* Subjects that can only be used in an admission average calculation for specific colleges cannot be used for consideration for non-college-specific awards (e.g. Guaranteed Entrance Scholarships). Additionally, they are not considered to satisfy prerequisite requirements.

In order to study some university-level courses, students are required to have completed certain high school classes. For example:

- To study university-level biology, chemistry or physics, the Grade 12 (senior-level) course of the same subject is required.
- To study university-level calculus, Grade 12 (senior-level) pre-calculus or a university-level pre-calculus class is required.

Nova Scotia transcripts

After applying for admission, applicants should upload a copy of their transcript to the admissions portal. After graduating, students must request an official Nova Scotia High School Transcript to be sent to us directly via postal mail by the school the student graduated from. Final grades for all subjects are needed to ensure admission conditions are met. If not received by August 1, it may impact students' admission and ability to enroll.
